

11 March, 2008

*The next minor bug fix version of Adhiyan Mozilla extension has been released on 17th February 2008.*

You can download and install Adhiyan 3.0.1 as specified at <http://adhiyan.mozdev.org/installation.html>

### **Bugs fixed in this version:**

- Fixed minor bug in English detection rules

This release is also available from [Mozilla Extensions](#) website. The browsers with previous version of Adhiyan installed already should get updated automatically.

I would like to thank [Sethu](#) from [Thamizha! Free Tamil Computing](#) group for his contribution in the testing of this extension.

Please use <http://adhiyan.mozdev.org/bugs.html> if you would like to raise any bug or feature request.

**PS:** Due to some other priorities, The release news has been delayed.
