

03 October, 2008

The next version of transliteration converters has been released.

New features in this release.

- Tamil 99 Keyboard layout added to Thagadoor Tamil Converter
- Online keypad map help which pops up when you type. if you feel it annoying., you can switch it off using converter options in the left side menu
 - Key pad map will pop up in the converter window itself instead of a different window as it was. This can also be switched on/off

I would like to thank Mr. [Suratha Yarlvaanan](#) who guided with his ideas to bring this converter as a better tool during its initial development. I would also like to thank Late Mr.

[Thenkoodu](#)

[Sakaran](#)

who gave the web hosting space free of cost during its first year.
